## OUR COMPANY

AAPL Solutions has been specializing in the Pharmaceutical, Food, and Beverage Industries since 1983. For over four decades, we have been at the forefront of primary raw material and packaging solutions, dedicated to serving the diverse needs of the pharmaceutical, food, and beverage sectors. Our commitment to excellence has established us as a trusted partner in the industry.

At our company, **we specialize in the supply of high-quality pharmaceutical raw materials and Active Pharmaceutical Ingredients (APIs).** Our extensive range of products meets stringent industry standards, ensuring reliability and efficacy for our clients in the pharmaceutical sector. We are committed to sourcing only the finest materials from trusted manufacturers, allowing us to support the development of safe and effective medications. With a focus on quality, compliance, and customer satisfaction, we aim to be a trusted partner for pharmaceutical companies, helping them bring innovative therapies to market efficiently and effectively.

## Antibiotic/Antibacterial

* Ambroxol HCL	* Diloxanide Furoate	* Levofloxacin	* Oxytetracycline
* Azithromycin	* Doxycycline	* Linezolid	* Pefloxacin
* Cefurozime Axetil	* Enrofloxacin	* Moxifloxacin	* Rifaximin
* Chloramphenicol	* Erythromycine	* Moxifloxacin	* Roxithromycin
* Chloramphenicol Palmitate	* Expectorant	* Moxifloxacin	* Tinidazole
* Ciprofloxacin	* Gatifloxacin	* Norfloxacin	
* Clarithromycin	* Imiquimod	* Ofloxacin	

## Analgesic/Anesthetic

* Aceclofenac	* Diclofenac Sodium	* Methohexital	* Tramadol
* Acetaminophen	* Etomidate	* Paracetamol	* Zolpidem
* Buprenorphine	* Etoricoxib	* Paracetamol DC90	
* Cinchocaine	* Ketamine	* Pentazocine	
* Dextromethorphan	* Ketorolax Tromethamine	* Prilocaine	
* Dibucaine	* Levodopa	* Propofol	
* Diclofenac Potassium	* Methadone	* Tapentadol	

## Anti Depressant

* Agomelatine	* Fluoxetine	* Sertaline
* Amitriptyline	* Fluvoxamine	* Tranylcypromine
* Bupropion	* Midazolam	* Venlafaxine
* Citalopram	* Mirtazapine	* Vilazodone HCL
* Desvenlafaxine Succinate	* Moclobemide	* Vortioxetine Hydrobromide
* Duloxetine	* Nortriptyline	
* Escitalopram	* Paroxetine	

## Cardiovascular

* Alfuzosin	* Clonidine	* Ivabradine	* Olmesartan Medoxomil
* Amlodipine Besylate	* Clopidogrel	* Labetalol	* Prazosin
* Atorvastatin	* Doxazosin	* Lercanidipine	* Propanolol
* Atorvastatin Calcium	* Enalapril	* Levosimendan	* Ramipril
* Azilsartan Medoxomil	* Ethacrynic Acid	* Losartan Potassium	* Ranolazine
* Bisoprolol Fumarate	* Ezetimibe	* Metoprolol Succinate	* Rosuvastatin Calcium
* Bisoprolol Hemifumarate	* Felodipine	* Metoprolol Tartrate	* Selexipag
* Bosentan	* Hydralazine HCL	* Moxonidine	* Telmisartan
* Candesartan Cilexetil	* Hydrochlorothiazide	* Nebivolol HCL	* Terazosin
* Carvedilol	* Ibesartan	* Nicorandil	* Ticlopidine
* Chlorthalidone	* Indapamide	* Nisoldipine	* Valsartan

## Anti Psycotic

* Aripiprazole	* Clozapine	* Lurasidone	* Quetiapine Fumarate
* Asenapine Maleate	* Droperidol	* Olanzapine	* Risperidone
* Brexpiprazole	* Fluphenazine	* Paliperidone	Ziprasidone
* Cariprazine	* Haloperidol	* perphenazine	
* Chlorpromazine	* Iloperidone	* Prochlorperazine	

## Anti Convulsant/Anti-Anxiety

* Alprazolam	* Clonazepam	* Gabapentin	* Pregabalin
* Brivaracetam	* Diazepam	* Lamotrigine	* Topiramate
* Buspirone	* Esclicarbazepine	* Levetiracetam	
* Carbamazepine	* Etizolam	* Lorazepam	
* Citicoline Sodium	* Felbamate	* Oxacarbazepine	

## Anti Inflammatory

- |                    |                                |                                |                   |
|--------------------|--------------------------------|--------------------------------|-------------------|
| * Aceclofenac      | * Diclofenac Diethylamine      | * Ibuprofen S250 / S380 / S500 | * Nepafenac       |
| * Acyclovir        | * Diclofenac Epolamine         | * Ibuprofen Sodium             | * Nimesulide      |
| * Apremilast       | * Diclofenac Resinate          | * Ketorolac                    | * Penciclovir     |
| * Benzydamine      | * Etoricoxib                   | * Mefenamic Acid               | * Piroxicam       |
| * Bromfenac Sodium | * Ibuprofen                    | * Meloxicam                    | * Tolfenamic Acid |
| * Celecoxib        | * Ibuprofen DC66 / DC85 / DC90 | * Mesalamine                   |                   |
| * Clarithromycin   | * Ibuprofen Lysine             | * Naproxen                     |                   |

## Steroids

- |                         |                         |                          |                 |
|-------------------------|-------------------------|--------------------------|-----------------|
| * Beclomethasone        | * Desonide              | * Fluticasone Propionate | * Stanozol      |
| * Betamethasone Acetate | * Dexamethasone         | * Halobetasol            | * Triamcinolone |
| * Boldenone             | * Dutasteride           | * Methyl Prednisolone    |                 |
| * Budesonide            | * Ethisterone           | * Mometasone             |                 |
| * Clobetasol            | * Finasteride           | * Oxandrolone            |                 |
| * Clobetasone           | * Flucinolone Acetonide | * Oxymetholone           |                 |
| * Deflazacort           | * Flumethasone          | * Prednisolone           |                 |

## Antihistamine

- |                         |                        |                       |
|-------------------------|------------------------|-----------------------|
| * Alcaftadine           | * Doxylamine           | * Pheiramine          |
| * Bepotastine Besilate  | * Ebastine             | * Pyrilamine          |
| * Bilastine             | * Epinastine           | * Rupatadine Fumarate |
| * Brompheniramine       | * Fexofenadine         |                       |
| * Carbinozamine Maleate | * Mizolastine          |                       |
| * Chlorphenamine        | * Olopatadine          |                       |
| * Citrizine             | * Orphenadrine Citrate |                       |

## Anti Diabetic

- |                 |                |                 |                |
|-----------------|----------------|-----------------|----------------|
| * Amorolfine    | * Fluconazole  | * Posaconazole  | * Tolnaftate   |
| * Amphotericin  | * Itraconazole | * Sertaconazole | * Voriconazole |
| * Eberconazole  | * Ketoconazole | * Terconazole   |                |
| * Efinaconazole | * Luliconazole | * Tioconazole   |                |

## Anti Fun

- |                 |                 |                 |                 |
|-----------------|-----------------|-----------------|-----------------|
| * Alogliptin    | * Empagliflozin | * Linagliptin   | * Sitagliptin   |
| * Canagliflozin | * Gliclazide    | * Metformin HCL | * Teneligliptin |
| * Dapagliflozin | * Glimepiride   | * Pioglitazone  | * Vildagliptin  |

## Anit Ulcerative

- |                         |                        |                      |               |
|-------------------------|------------------------|----------------------|---------------|
| * Dexlansoprazole       | * Esomeprazole Pellets | * Omeprazole         | * Rabeprazole |
| * Dexrabeprazole Sodium | * Lansoprazole         | * Omeprazole pellets | * Ranitidine  |
| * Esomeprazole          | * Nizatidine           | * Pantaprazole       | * Rebamipide  |

## Anti-cancer

- \* Azathioprine
- \* Capacitabine
- \* Ibrutinib
- \* Olaparib
- \* Palbociclib
- \* Pazopanib

## Erectile Dysfunction

- \* Avanafil
- \* Dapoxetine
- \* Sildenafil Citrate
- \* Tadalafil
- \* Vardenafil

## Antitussieves

- \* Dextromethorphan
- \* DL-Cloperastine
- \* Levocloperastine Fendizoate
- \* Methylepherine HCL

## Anti Epileptic

- \* Levetiracetam
- \* Oxcarbazepine
- \* Pregabalin

## Insomnia

- \* Doxepin
- \* Estazolam
- \* Eszopiclone
- \* Flunitrazepam
- \* Quazepam
- \* Triazolam
- \* Zolpidem
- \* Zopiclone

## Antiemetic

- \* Aprepitant
- \* Dolasetron
- \* Domperidone
- \* Granisetron
- \* Ondacetrol
- \* Ondansetron
- \* Palonosetron

## Anti Diarrhoeals

- \* Diloxanide Furoate
- \* Metronidazole
- \* Metronidazole Benzoate
- \* Ornidazole
- \* Secnidazole
- \* Tinidazole

## Antimigraine

- \* Almotriptan
- \* Eletriptan
- \* Frovatriptan
- \* Naratriptan
- \* Rizatriptan
- \* Sumatriptan
- \* Zolmitriptan

## Others

- |                        |                         |                      |                         |
|------------------------|-------------------------|----------------------|-------------------------|
| * Ascorbic Acid        | * Ferric Orthophosphate | * Mecobalamin        | * Sodium Bicarbonate    |
| * Calcium Carbonate    | * Ferric Pyrophosphate  | * Niacin             | * Sodium Chloride       |
| * Calcium Chloride     | * Hydroxocobalamin      | * Potassium Chloride | * Sodium Citrate        |
| * Citric Acid          | * Magnesium Carbonate   | * Potassium Nitrate  | * Sodium Phosphate      |
| * Di Calcium Phosphate | * Magnesium Chloride    | * Sodium Acetate     | * Tri Calcium Phosphate |

## Anti Glaucoma

- \* Bimatoprost
- \* Carboprost
- \* Latanoprost
- \* Misoprostol
- \* Tafluprost
- \* Travaprost

## Hormones

- \* Cyproterone
- \* Desogestrel
- \* Dienogest
- \* Drospirenone
- \* Gestodene
- \* Tibolone
- \* Ulipristal

## Anticoagulant

- \* Acenocoumarol
- \* Apixaben
- \* Dabigatran Etxilate Mesylatw
- \* Edoxaban Tosylate
- \* Rivaroxaban
- \* Warfarin

## Stimulants

- \* Dexmethylphenidate
- \* Dextroamphetamine
- \* Ephedrine HCL
- \* Ephedrine Sulfate
- \* Lisdexamphetamine Dimesylate
- \* Methylphenidate
- \* Modafinil

## Decongestants

- \* Naphazoline
- \* Oxymetazoline
- \* Phenylephrine
- \* Pseudoephedrine HCL
- \* Pseudoephedrine Sulfate
- \* Xylometazoline

## Antihelminthic

- \* Albendazole
- \* Ivermectin
- \* Mebendazole
- \* Pentaminide
- \* Praziquantel
- \* Thiabendazole

## Anti Parkinson

- \* Benzhexol
- \* Entacapone
- \* Pramipexole
- \* Ropinirole
- \* Rotigotine

- Safinamide
- Selegiline HCL
