DX 12

Step 1: Frame Selection

Please select any one correct type of frame from options shown below . Please ensure to buy frames with proper required dimensions (like size of frame, thickness etc).

Galvanized Iron (GI)

Aluminium Section

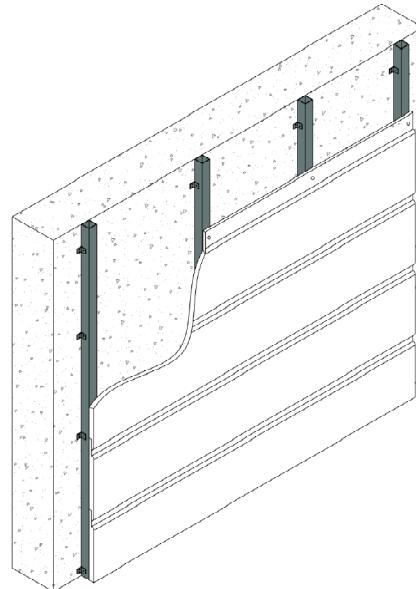

Mild Steel (MS)

Step 2: Framing Details

Select the appropriate type of framing pattern depending upon the needs of the application.

Install frames with the help of concrete fastener and sheet metal screw at appropriate spacing as per SHERA standards and ensure the framing is intact to hold the plank.

 For the detailed frame fixing procedure and specification, please refer to the SHERA Plank Installation Manual

Step 3: SHERA Splendid Plank Fixing & Screw Detail

Concrete fastener
(for fixing the frame on the structure)

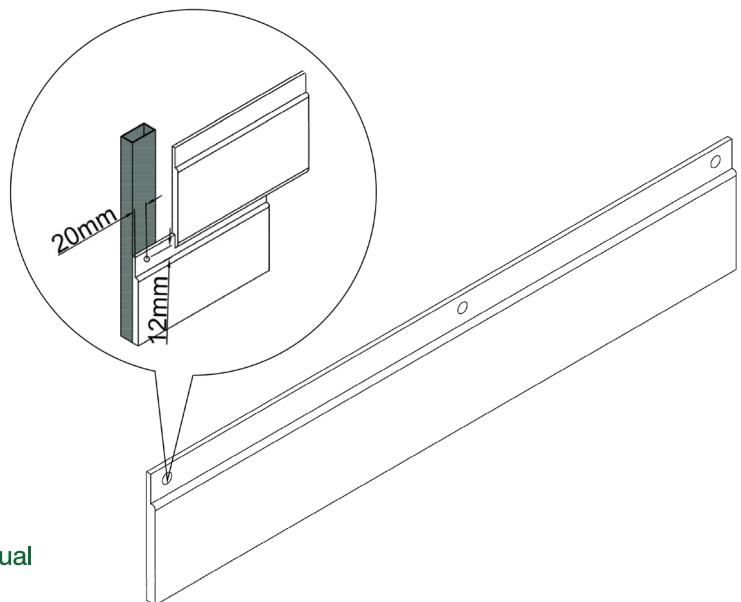

SDST screw
(for fixing the plank on the frame)

Please note:

- Screw spacing should be maintained as per SHERA Standards. Please refer picture.
- SHERA Screws must be countersunk by minimum 1 mm & maximum 2 mm.

 For detailed screw fixing procedure please refer SHERA Plank Installation Manual

Step 4: Painting / Finishing Process

- Apply primer and paint as per desired finish.
- Water based clear PU coat can be applied to enhance paint finishes.

 For detailed painting & finishing procedure, please refer SHERA Painting Manual
