Landscaping, Walling**

Board Surface Finish

Brick

Cassiano

Cassia

Straight
Grain 3"

Straight
Grain 4"

Blossom

Drop

Rocco

Stucco

Step 1: Frame Selection

Please select any one correct type of frames from the options shown below. Please ensure to buy frames with the proper required dimensions (like size of frame, thickness etc).

Galvanized Iron (GI)

Aluminium Section

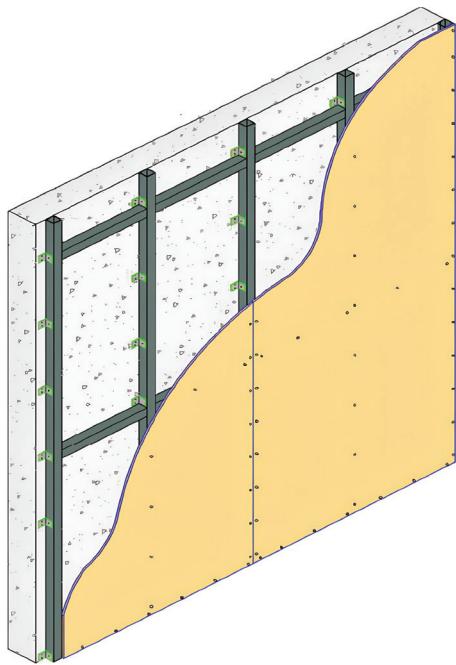

Mild Steel (MS)

Step 2: Framing Details

Select the appropriate type of framing pattern depending on needs of the application.

Install frames with the help of concrete fastener and sheet metal screw at appropriate spacing as per SHERA standards and ensure the framing is intact to hold the boards.

 For detailed frame fixing procedure & specification, please refer to the SHERA Board installation manual.

Step 3: SHERA Deco Board Fixing & Screw Detail

Fix the SHERA Deco Board using SHERA Screws or any good quality non-corrosive SDST screws.

Concrete fastener
(for fixing the frame on the structure)

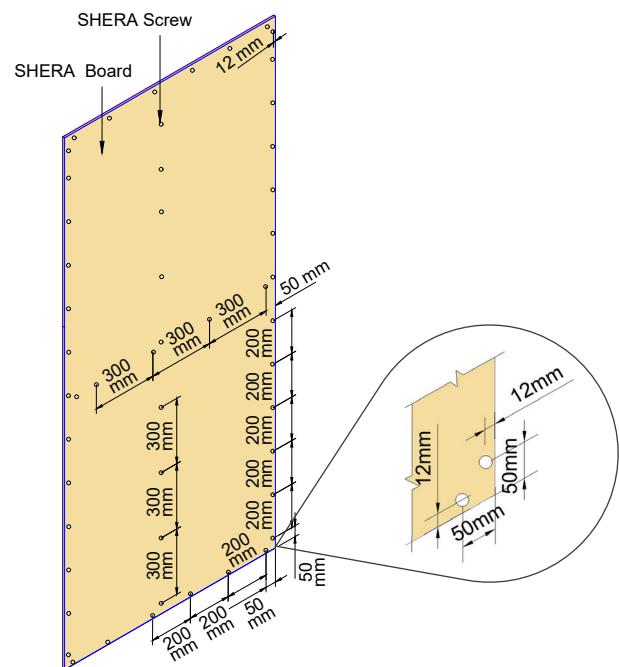

SDST screw
(for fixing the plank on the frame)

Please note:

- Screw spacing should be maintained as per SHERA Standards. Please refer picture.
- SHERA Screws must be countersunk by minimum 1mm & maximum 2mm.

 For detailed screw fixing procedure, please refer SHERA Board installation manual.

Step 4: Board to Board Finishing

Only groove finish can be done in deco board, hence while fixing deco board, maintain a gap of 3 to 5 mm, which can be treated with PU sealant.

 For the board-to-board joint finishing procedure, please refer SHERA Jointing & Finishing Manual.

Step 5: Painting / Finishing Process

- Cover the screw heads with acrylic putty and allow it to dry completely.
- Apply primer and paint as per desired finish.
- Water based clear PU coat can be applied to enhance paint finishes.

 For painting & finishing procedures, please refer SHERA Painting manual.
